

NEW HAMPSHIRE OCCUPATIONAL EMPLOYMENT AND WAGES

JANUARY 2006

based on the
November 2004 survey by
The Occupational Employment
Statistics (OES) Program

State of New Hampshire

John H. Lynch, *Governor*

New Hampshire Employment Security

Richard S. Brothers, *Commissioner*

Darrell L. Gates, *Deputy Commissioner*

Economic and Labor Market Information Bureau

George Nazer, *Director*

Bruce DeMay, *Assistant Director*

ACKNOWLEDGMENTS

We give special thanks to the many employers whose voluntary participation made this publication possible.

In addition, we express our thanks to the U.S. Department of Labor, both on the Regional level (Boston, MA) and on the Federal level in Washington, DC, for their help in the Federal-State cooperative effort.

The following **New Hampshire Employment Security** staff were instrumental in the production of this publication:

Economic and Labor Market Information Bureau -

Collecting, monitoring and refining the data:

Donald Kelley, *Research Analyst*

Elisabeth Picard, *Labor Market Analyst*

Pre-press design and web site preparation:

Elisabeth Richardson, *Program Assistant*

John Gallison, *Statistician*

Mailing and distribution:

David Bernabei, *Statistical Clerk*

Reproduction Services -

Douglas Hamer, *Supervisor of Reproduction*

Scott Koblich, *Digital Press Operator*

INTRODUCTION ►

The Occupational Employment Statistics (OES) program is based on a semiannual survey conducted by State Employment Security Agencies in all 50 states. The New Hampshire survey was conducted by New Hampshire Employment Security's Economic and Labor Market Information Bureau, in cooperation with the U.S. Bureau of Labor Statistics. The survey is designed to collect data on occupational employment and wage rates of workers in all nonfarm industries.

The November 2004 survey is the fifth to be conducted using the new semiannual method. The semiannual survey allows us to publish employment and wage estimates more often and faster than before. It also helps to reduce seasonal bias since the survey sample is split between November and May.

The OES survey collects data from employers in all industries. These industries are coded by using the North American Industry Classification System, or NAICS.

The OES program survey data are used for prevailing wage determinations for Foreign Labor Certification, and are the foundation of occupational projections in New Hampshire. The information is used by employers, government planners, economic developers, and others.

This publication provides statewide employment estimates and corresponding wage data, by occupation. Although only statewide data is published here, our New Hampshire Employment Security web site includes several substate areas. See 'Occupational Data on our Web Site' on page vi.

The OES survey is accomplished by the use of occupational questionnaires, mailed to more than 1,800 employers or employing units. The OES survey sample is stratified by area, industry, and size class.

Mailings of surveys began in November 2004, with data collection continuing through June 2005. This OES Survey recorded employment and wage data for employees performing 600+ diversified occupations for 1,400 employers or employment units throughout the Granite State. A response rate of 82.12 percent was attained statewide.

A more detailed description of the methodology, as well as national statistics, may be found at the Bureau of Labor Statistics Web site at <http://stats.bls.gov/oes/> under "Technical Notes for OES estimates."

HOW TO READ THE TABLES ►

For each occupation in the tables of this publication, there is a corresponding SOC code and an estimate of employment within that occupation. The remaining data fields are: Entry Level Wage, Mean (Average) Wage, Median Wage, and Experienced Wage.

- 1 **Estimated Employment** is an approximation of the number of people employed in each area, occupational group, or specific occupation. If the estimated employment is not publishable, an NP will appear.
- 2 **Entry Level Wage** is the mean of the lower third of the population.
- 3 **Mean (Average) Wage** is the average hourly wage. If an hourly wage is not available (for occupations that typically have a nonstandard work week) the annual salary is displayed.
- 4 **Median Wage** is the estimated 50th percentile of the distribution of wages. For each median wage, 50 percent of the workers in an occupation earn wages below, and 50 percent earn wages above median wage.
- 5 **Experienced Wage** is the mean of the upper two-thirds of the population.

Because of confidentiality or lack of data, not all occupations appear in all areas.

- indicates a wage greater than \$95.71 per hour or \$199,090 per year, or is otherwise not publishable.

NP - indicates that the estimated employment is not publishable.

OCCUPATIONAL DATA ON OUR WEB SITE ►

This publication can be downloaded in its entirety from the New Hampshire Employment Security web site: <http://www.nhes.state.nh.us/elmi/oesfiles.htm>

The file is in PDF format and can be viewed in Adobe Acrobat.

In addition, similar employment and wage tables are provided in HTML format. The Statewide and 14 substate areas are represented, as well as New Hampshire's 10 counties.

These easy-to-access HTML tables are unique in that the occupations are clickable. Once the area and job title are found, simply click on the title to bring up an Area Profile for that job.

Area Profiles contain useful information such as:

- Job definitions (no need to consult a glossary)
- Highest Employment and Best Pay for the top five areas in the state
- Colorful state maps with area breakdown, comparing the mean wage among areas
- Box and Whisker graphs that illustrates the spread of data around the median wage
- And a summary of key employment and wage data for each occupation.

From Area Profiles, drop-down menus are available to locate a new occupation for that area, or a new area for the occupation.

The OES staff has developed a brief yet informative power point tutorial on our web site to enhance your use and understanding of the occupational and wage data presented.

You may view this tutorial under the heading "How to Use Wage Data" at www.nhes.state.nh.us/elmi/oesfiles.htm.
